**CHEMICAL TEST REPORT No. Ch 2075 (Ch 2075)
18 May 2012**

Customer, address: JSC "Traidenis", Pramonės str.. 31B, Alytus
 Phone: 861859900 Fax: not indicated No of Agreement/Order: 2632
 Sample name, amount: Single skin and multiple skin, underground and aboveground storage tanks of glass-reinfor. plas.GRP, 3 unit.
 Manufacturer/owner: JSC "Traidenis"
 Place of sampling: Pramonės str. 31B, Alytus
 Sampled by: not indicated (position and name)
 Index and No of sampling document: not indicated from amount: not indicated
 Sampling report No.: 2075 date: 2012-04-19 time: 10.00 val.
 Sample delivered to Reception by: _____ (position, name, surname)
 Sample delivered: date 2012-04-19 time: 12.20 val. Sample valid until (date): not indicated
 State of sample: [] frozen [] cooled [] fresh [] preserved [] room temp. [] °C temp.
 Test started: 2012-04-20 finished: 2012-05-02

Analyte	Test		Unit of measure
	method index	result ± U	
1	2	3	4
Overall migration into aqueous food simulant	LST EN 1186-9:2002	a < 2,5	mg/kg

Sample remainder: [] returned to customer [] destroyed [] stored until 2012-06-19

Supplementary data, remarks: Sample preparation carried out according HN16:2011 (Hygienic Standard of the Republic of Lithuania). Test conditions: 10 days at 40°C.

Test(s) performed by: chemijos specialistė Aleksandra Imbrasienė (position, name, signature)

Head of division/subdivision: Giedrė Jankovskienė (position, name, signature)

Explanations:	1. <- less than test method determination limit; a<- less than test method detection limits.
	2. U - expanded uncertainty presented.
	3. N -not accredited method.
	4. Test report or parts thereof (annexes) can't be reproduced without the consent of the head of division and/or subdivision.
	5. Test results related only to the particular samples tested.
